Navian Group EU 2023 — Present	Orchestrating product architecture across the group's two core verticals: • Reviero (B2B2C): Designed the business infrastructure end-to-end. Built the Consumer Marketplace and the internal AI-Powered Agency OS. Engineered a Node-Based Logic Editor that automates sales workflows with AI agents. • Navian (Enterprise SaaS): Engineered a comprehensive Capital Lifecycle OS. Mapped a complex 9-role permission matrix (RBAC) to digitize the workflow for Developers, Banks, and Investors.	Lead Product Designer Ecosystem Architect
Flow Health USA 2021 — 2023	Designed a mission-critical Enterprise Biosecurity OS deployed at Disney, Netflix, and JPMorgan . Transformed raw medical data into a "Traffic Light" Command Center for managing safety risks. The premium UX became the key sales asset, enabling clients to manage 50k+ employees without production shutdowns.	Senior Product Designer Solo, End-to-End
Propetly UK 2019 — 2021	UK-based PropTech startup. Architected Real-Time Auction Bidding engines and Market Intelligence tools. Translated complex investment data into actionable signals for property traders.	Product Designer
Its.agency Russia 2017 — 2019	High-velocity agency environment. Delivered 12+ Turnkey MVPs including FinTech admin panels and SaaS marketplaces. Specialized in rapid prototyping and "Zero-to-Launch" delivery.	Product Designer
