

Artem Sokolov

Design Engineer

Specializing in complex B2B SaaS and data-heavy interfaces. I design the product and ship the production code myself, building with Claude Code into products that cannot afford to break. Nine years across Fintech, PropTech, RegTech, and Enterprise.

Datox UK Feb — Jul 2026	Redesigned and rebuilt a live regulatory reporting platform: the whole workflow from raw source files to a filed report, including stages the legacy product never had. Implemented and wired to the backend myself, shipped behind an opt-in toggle while clients kept filing to the regulator.	Design Engineer Temporary contract
Stayte ex-Reviero · EU 2024 — Feb 2026	Designed and built the web product: frontend, Supabase backend, and the connectors to HubSpot, Pipedrive, Facebook, Twilio and Vapi. Plus a node-based editor letting the Head of Sales program the AI agents without a developer.	Design Engineer Navian Group
Navian EU 2023 — 2024	Enterprise SaaS. Engineered a Capital Lifecycle OS , mapping a 9-role permission matrix (RBAC) for Developers, Banks, and Investors.	Lead Product Designer Navian Group
Flow Health USA 2021 — 2023	Enterprise biosecurity platform used by Disney, Netflix, JPMorgan — medical data into a traffic-light command centre for 50k+ staff on set.	Senior Product Designer Solo, End-to-End
Propetly UK 2019 — 2021	UK PropTech startup. Architected Real-Time Auction Bidding engines and Market Intelligence tools for property traders.	Product Designer
Its.agency Russia 2017 — 2019	Agency environment. Delivered 12+ turnkey MVPs — FinTech admin panels and SaaS marketplaces, zero-to-launch.	Product Designer
