Datox Compliance UK Feb — Jul 2026	Design and frontend for a full rebuild of a live regulatory reporting product — the whole workflow, from raw source files to a filed report, replaced in place behind an opt-in toggle while clients kept filing to the regulator.	Design Engineer Temporary contract
Reviero EU 2024 — Feb 2026	Design and build across the whole ecosystem bar the mobile app: web frontend, Supabase backend, and the connectors to HubSpot, Pipedrive, Facebook, Twilio and Vapi. Plus a node-based editor letting the Head of Sales program the AI agents without a developer.	Design Engineer Navian Group
Navian EU 2023 — 2024	Enterprise SaaS. Engineered a Capital Lifecycle OS , mapping a 9-role permission matrix (RBAC) for Developers, Banks, and Investors.	Lead Product Designer Navian Group
Flow Health USA 2021 — 2023	Enterprise biosecurity platform used by Disney, Netflix, JPMorgan — medical data into a traffic-light command centre for 50k+ staff on set.	Senior Product Designer Solo, End-to-End
Propetly UK 2019 — 2021	UK PropTech startup. Architected Real-Time Auction Bidding engines and Market Intelligence tools for property traders.	Product Designer
Its.agency Russia 2017 — 2019	Agency environment. Delivered 12+ turnkey MVPs — FinTech admin panels and SaaS marketplaces, zero-to-launch.	Product Designer

Competencies

Product Discovery	System Architecture	Data-Driven UX	User Research	UI/Visual Design
Design Systems	Interaction Design	Prototyping	React + TypeScript	Backend Functions (Supabase)
API Integrations	Canvas Rendering	Figma	Claude Code	Cursor
